

Piles

Can't Be Cured from the Outside.

External treatments seldom cure. Nor do surgical operations. The cause is internal—bad circulation, blood is stagnant, the veins flabby. The bowel walls are weak, the parts almost dead.

To quickly and safely rid yourself of piles, you must first get the circulation—send a fresh current through the stagnant pools. Internal treatment is the only method. Ointments and "cutting" won't do it.

J. R. Leenhardt, M. D., a specialist, has at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription "PILLS-ROID," and tried it in 3,000 cases before he was satisfied. Now PILLS-ROID is sold by druggists everywhere under guarantee. It is a harmless tablet, easy to take, and can always be found at Lee & Osgood Co. and druggists everywhere, who will gladly refund the purchase price to any dissatisfied customer.

NOTICE!

Parties having Framing un-called for, are requested to call for same before July 1st, when we will take stock.

THE BUTTS ART GIFT SHOP

60 Broadway

FIRST ANNUAL PICNIC

GIVEN BY THE United Italian Societies FOR THE BENEFIT OF THE INVALID MEMBERS. AT COLUMBUS PARK SUNDAY, JUNE 19th

CHINA'S NOAH HAD NO ARK

China had its Noah, no less renowned than the Biblical character honored by the testator's executor. He was practically contemporaneous with the man who built the ark, too, since 2200 B. C. was his period. But when the waters came in China, Ta-Yux didn't build an ark to save a few. He built revetments that controlled the rushing waters of the Hoang, the largest river of China, and saved his native land and people.

The Story is told in the Shu-king, the books of history edited by Confucius. The ability shown by Ta-Yux in building the Hoang revetments and adjusting his channels to the volume of water made his name famous for the time. Even if the accidental man in the street hadn't happened to have heard it before and knows only the story of Noah, his engineering skill has been surpassed, even equaled by his successors, and his method of river control may be heeded by engineers today.

It is practically the method adopted by the engineers of the Mississippi river commission, namely, the adjustment of the velocity of the current to the maximum load of silt which the water carries. The hydraulic engine of flood accomplishes this by impounding the excess of water during flood seasons and releasing it during seasons of drought; Ta-Yux accomplished the same result by the construction of additional channels. In the lower part of the delta nine additional channels were constructed. Any number or all of them could be thrown open to flood the maximum load of silt which the water carries. The hydraulic engine of flood accomplishes this by impounding the excess of water during flood seasons and releasing it during seasons of drought; Ta-Yux accomplished the same result by the construction of additional channels. In the lower part of the delta nine additional channels were constructed. Any number or all of them could be thrown open to flood the maximum load of silt which the water carries.

It was a task of thirteen years. According to the Shu-king, Ta-Yux passed his own day without ceasing to care for his child, the nation.

Experiments show that during profound sleep a noise sufficient to wake the sleeper produces a perceptible rise in the temperature of the brain and the head.

EYES TRED?

If your eyes are tired and over-worked, if they feel aches, burn, or smart, go to any drug store and get a bottle of Bon-Optic eye drops. One tablet a fourth of a glass of water and use to bathe the eyes from two to four times a day. You will be surprised at the rest, relief and comfort Bon-Optic brings.

Note: Doctors say Bon-Optic strengthens eyesight 50 per cent in a week's time in many instances.
